

Vasesen Quick Reference v1.0

Attributes and Skills

Physique. Size, strength, resilience, fortitude.

- Agility, close combat, force.

Precision. Coordination and motor skills.

- Medicine, ranged combat, stealth.

Logic. Intelligence. Education. Learning.

- Investigation, learning, vigilance.

Empathy. Understanding, persuasion, trickery.

- Inspiration, manipulation, observation.

Attributes range from 2 to 5 and cannot begin greater than 4, except for your archetype's main attribute. Skills range from 0 to 5.

Using a Skill

Roll a number of dice equal to your **skill value** plus associated **attribute**. Each **six** is a success.

- Talents, advantage, and players that help you may add dice.
- Each Condition deducts a die.

You can **push** your roll by suffering a condition, if you fail. (Physical conditions for physical tests, etc.) Re-roll all dice except sixes.

Advantage

At each mystery's start, you can gain an **Advantage**, e.g. a friend, training, resources. Use it to add 2 dice to a skill test before rolling.

Difficulty and Chance

# Dice	Normal	Pushed
1	17%	31%
2	31%	52%
3	42%	67%
4	52%	77%
5	60%	84%
6	67%	89%
7	72%	92%
8	77%	95%
9	81%	96%
10	84%	97%

Tests usually require one success. Difficult tests require more. Some skills use **extra successes**.

Opposed Rolls

When an opponent tries to stop you, you both roll. The one with the **most successes** prevails.

Conditions

Physical and mental injuries are **Conditions**.

Physical. Physique and precision.

- Exhausted, battered, wounded.

Mental. Logic and empathy.

- Angry, frightened, hopeless.

Each condition removes 1 die from all physical or mental skill tests, respectively. If you take a fourth physical or mental condition, you are **Broken**. You are incapacitated and suffer a critical injury.

Combat

Each turn, you get a **slow** and **fast** action. You may take reactions on another player's turn.

Typical Slow Action	Skill
Melee attack	Close combat
Ranged attack	Ranged combat
Unarmed attack	Force
Wrestle, push, grapple	Force
Flee	Agility
Persuade	Manipulation
Lure enemy to a spot	Agility
Survey situation	Vigilance
Treat injuries	Medicine
Climb wall	Agility

Typical Fast Action	Skill
Draw/swap weapon	—
Stand up	—
Dodge (reaction)	Agility
Parry (reaction)	Close combat/force
Break free (reaction)	Force
Hold (reaction)	Force
Chase (reaction)	Agility
Resist magic (reaction)	Depends
Shout a sentence	—
Close door	—
Snuff candle	—
Take cover	—
Move within a zone or to an adjacent one	—

Weapons and Armor

Melee Weapon	Dmg	Rng	Bns	Avl
Kick/punch	1	○	○	—
Chair	1	○	+1	1
Sledgehammer	2	○	○	2
Knife/whip	1	○	+1	1
Rapier	1	○	+2	3
Sword/saber/flail	2	○	+2	4
Crowbar/ knuckles	1	○	+1	2
Axe	2	○	+1	1
Quarterstaff	1	○	+1	1
Halberd	3	○	+1	4
Bayonet	2	○	+1	3

Ranged Weapon	Dmg	Rng	Bns	Avl
Spear	1	○-1	+1	1
Bow	1	○-2	+1	1
Longbow	2	1-3	+1	2
Crossbow	2	○-1	+1	3
Pistol/revolver	2	○-1	+2	4
Musket	2	1-2	+1	3
Rifle	2	1-3	+2	4
Cannon	5	2-5	+1	5

Armor	Prot	Agility	Avail
Light	2	-1	2
Medium	4	-2	3
Heavy	6	-3	4

When hit, roll dice indicated by armor's **protection**. Each success reduces damage by 1.

Equipment

Resources	Standard	Bonus	Capital
1	Destitute	-1	—
2	Poor	—	—
3	Struggling	—	1
4	Stable	+1	2
5	Middle-class	+1	3
6	Well-off	+2	5
7	Wealthy	+3	8
8	Filthy rich	+5	12

Equipment has a level from 1 to 5. **Buy equipment** by rolling a number of dice equal to **resources** for living standard. Use successes to buy equipment with equal/lower level.

Before a mystery, you can donate successes to others. During a mystery, automatically buy by spending **capital**. Roll opposed manipulation plus **bonus** to persuade reluctant sellers.

Healing Injuries

Treat critical injury. Turn. Treat a broken player using medicine or inspiration. Extra successes heal additional conditions.

Heal conditions. Day. Use medicine/inspiration to heal three physical/mental conditions in a safe location. An extra success heals three more.

Rest. Scene. Describe a scene with players to heal two conditions (except broken), once a day.

Services. Scene. Use resources and describe a scene where you receive medical services.

Fear

When you encounter terrifying things, you must pass a **fear test** or become **terrified**.

Situation	Fear Value
Scary – vaesen, corpse	1
Terrible – werewolf, dead children	2
Unbearable – mass grave, atrocity	3

Choose Logic or Empathy. Roll a number of dice equal to **attribute** plus **nearby players** (max +3) minus **mental conditions**. Broken/terrified players don't count.

Fear value indicates the number of required successes. If you fail, you become **Terrified** for d6 rounds. You **flee**, **freeze**, **faint**, or **attack**.

Experience Points

At the end of each session, you gain one Experience Points (XP) for each question you answer “yes” for.

- Did you participate in the session?
- Did you confront any vaesen?
- Did you identify an unknown vaesen?
- Were you affected by your Dark Secret?
- Did you take risks to protect other people?
- Have you learned anything?
- Did you develop something in your HQ?
- Did you perform an extraordinary action?

Spend 5 XP for an **Advance** to increase a skill by one or to gain a new talent. Skills may never be greater than 5.
